Education

J.D., Peking University

Master of Law, Peking University

B.S., Jiangsu University, English Literature

Admission

Chinese Bar

Practice

Iris majored in English Literature at college and graduated as the top one student in her class of the Foreign Language School. Later, she was admitted to the Peking University School of Transnational Law to study both the Chinese law and the US law. She was awarded the second prize scholarship for her excellence in legal study at the law school. She is also an avid participant in extracurricular activities and an accomplished dancer.

Iris was a member of the Bayes team representing a listed company in an ITC case that had shaken the global modular LED display panel industry. She have learned from and made substantive contribution to the discovery proceedings of the case, including witness preparation, document review, legal research and drafting, and client liaison. Iris and the team helped the client win a full victory by forcing an unconditional dismissal of the case by the petitioner.

After joining Bayes, Iris has extensive exposure to various technical fields, such as artificial intelligence, medical devices, electronic vaporization devices, audio systems, and autonomous driving, from which she has learned substantially. Iris is experienced in assisting patent prosecution, attending invention disclosure meetings, drafting legal memo and briefs, performing legal research, and overseeing case management.
